

Extras Cover

Extras services are things like dental, optical, physiotherapy and chiropractic.

If you have Extras cover your health insurer will pay money towards the cost of these treatments.

With Frank you can choose to be covered for either 50% or 80% of costs up to your annual limits.

Frank has two levels of Extras cover:

Some Extras covers you for some, but not all extras services. It has generous annual limits and is good for the light to regular user.

Lots of Extras includes lots of treatment types with big limits. If your health is high maintenance or you just want options Lots could be for you.

Which extras cover you choose is totally up to you, whatever suits your needs and budget.
