

# basic hospital 500 (basic+)

This information is current at the time of publishing (October 2022)

If you need to use Basic Hospital 500 (basic+) cover, this Frank fact sheet details what you need to know; from what's covered to what's excluded plus excesses and waiting periods that apply. This product is not recommended if you need to be admitted into a private hospital. Basic hospital 500 (basic+) does not help you avoid public hospital queues. The length of the public hospital queue is determined by the hospital and is not influenced by Frank.

We recommend that you read and retain this fact sheet along with the Private Health Information Statement for this product and Frank's Important Information Guide.

Hospital treatments by clinical category	
Rehabilitation	R
Hospital psychiatric services	R
Palliative care	R
Brain and nervous system	R
Eye (not cataracts)	R

Pregnancy and birth	R
Assisted reproductive services	R
Weight loss surgery	x
Insulin pumps	x
Pain Management with Device	R
Sleep studies	R

x **Excluded services (we don't pay benefits towards)**

R **Restricted services**

## Excess

Per person	\$500 per year
Couple/family	\$1,000 per policy per year (if more than one person is hospitalised)

Learn more about [hospital excess](#).

## Restricted services (R)

These are services which are limited to a minimum (default) benefit as set by the Australian Government for accommodation as a private patient in a shared room of a public hospital. This benefit is not sufficient to cover the cost of a private room in a public hospital or any room in a private hospital, and does not cover theatre costs. If you are admitted to a private hospital for treatment that is restricted by your policy, large out of pocket expenses will apply.

This product includes a restricted benefit for hospital psychiatric services, you can use a one-off waiver to upgrade your cover and get immediate access to applicable services. This waiver is available only once per person, per lifetime and if you have held hospital cover for at least two months.

## Accidents

Covers accidental injuries sustained after joining Frank. For an accident to be covered, treatment must be sought through a Doctor or an Emergency Department within 48 hours of sustaining the injury and the hospital admission must occur within 90 days. The Doctor's letter / hospital report must be supplied to Frank.

## Waiting periods

Just because you buy hospital cover today, doesn't mean you can claim today. Generally a new health insurance member will need to be with a fund for a period of time before their fund will pay any benefits. This is called a 'waiting period'.

Basic Hospital 500 (basic+) has the following waiting periods:

0 days	Hospital treatment as a result of an accident
2 months	Psychiatric, rehabilitation, palliative care, hospital services and procedures that are not pre-existing conditions
12 months	Pregnancy services and pre-existing conditions (PEC)

If you haven't held your current level of cover for at least 12 months, you are required to go through the PEC check for any hospitalisation. This involves asking your GP and specialist their written opinion on whether your condition is pre-existing. The process can take some time and it's best to get this done as soon as possible to confirm whether Frank can cover your procedure. The documentation will then be assessed by a medical practitioner appointed by Frank, who will decide whether your condition is deemed pre-existing or not.

If you've switched to Frank from another fund on an equal level of cover and have already served waiting periods, you might not have to wait again. Find out more about [waiting periods](#).

## Pre-existing conditions

There's a special waiting period for 'pre-existing conditions'. A health insurer's standard waiting period for a service might be 2 months, but if you have a pre-existing condition relating to that service then the waiting period will be 12 months. Learn more about [pre-existing conditions](#).

## Medical gap cover and out-of-pocket costs

### What is medical gap cover?

Medical Gap Cover is an Australian Government initiative that ensures Public and Private Hospital patients receive benefits towards their Medical costs from either Medicare, their Private Health Fund or both. A schedule of fees, called the Medicare Benefits Schedule or MBS for short, has been set by the Department of Health. The MBS covers all eligible Medical services that can be provided by doctors and specialists when you are an in-patient in a hospital or day surgery. Under the MBS, Medicare will pay 75% of the schedule fee for your in-patient medical treatment and Frank pays the other 25%.

In Australia, Doctors and Specialists are able to set their own fees. This means, in some cases, they will charge higher fees than those set out in the MBS list described above. This higher fee is generally referred to as a "gap" fee or "out of pocket" cost.

### Out-of-pocket costs or "gap" fees explained

The difference between the fees set by the MBS and what your doctor chooses to charge is commonly referred to as the 'gap'. If you hold private hospital cover, and are admitted to hospital for a procedure, your doctor can choose to bill above the MBS. This can leave you with a "gap" to pay or out of pocket costs that are not covered by Medicare or Frank. Before you go into hospital, you should discuss these fees with your doctor to understand the cost of your treatment. This is called informed financial consent.

### Informed Financial Consent

You should always obtain written informed financial consent detailing any out of pocket costs with respect to medical services from the medical provider/s involved in your procedure prior to your admission to hospital. It is also recommended that you receive written financial consent from the hospital where your procedure will be conducted. If at any stage of this process you are concerned or have questions, just call Frank and we will guide you through the process. We are happy to answer any questions you may have.

### What is Access Gap Cover? How Frank is helping to reduce your out of pocket costs.

Frank is partnering with the Australian Health Service Alliance (AHSA) and their Medical Gap initiative called Access Gap Cover. Access Gap Cover is a billing system that provides higher benefits than the schedule of fees set by the Department of Health which aims to reduce or even eliminate your out-of-pocket costs for doctor or specialist fees when you are treated as an in-patient in a hospital or day surgery.

## **Is your doctor, and any other specialist involved in your treatment, registered for Access Gap Cover?**

It is your doctor's choice to participate in Access Gap Cover on a patient by patient basis. If they do, they will need to provide you with a written estimate of fees for your treatment. If you choose a doctor that does not participate in the Access Gap Cover program, you will be covered for the scheduled fee, but you will need to pay the gap. Please note: there may still be out-of-pocket costs even if your doctor uses Access Gap Cover however these costs are capped to ensure you are protected from being charged high out of pocket costs.

The additional medical gap benefit will vary by eligible service so please contact Frank prior to treatment to determine your additional medical gap cover benefit (if applicable).

## **Choice of doctor in a public hospital**

When making a decision about which hospital you'll be treated at, keep in mind that not all doctors have admitting rights into all hospitals. Basically, if you have a preferred doctor they might not be allowed to treat you in a public hospital. Your doctor will be able to tell you what hospitals they have admitting rights to.

## **Are there times frank won't pay?**

If you can claim from someone else you can't claim through Frank (think workers compensation). View the full list of [what Frank may not be able to pay](#) on a hospital or medical claim.

## **More information about what's covered.**

Frank has a lot more information about hospital fees, doctors' fees, gap and all the nitty gritty. Find out more about [hospital and medical fees](#).

Before receiving any treatment, check in with Frank for a quote so that you know what you're covered for, how much we'll pay towards the treatment and any out of pocket expenses that you might face.
