

# some extras (50% back)

This information is current at the time of publishing (January 2024).

Let's be frank, if you're taking out Extras cover, you'll get the most out of it by actually using it. This Frank fact sheet details what you need to know about Some Extras, from included services to annual limits and waiting periods that apply.

We recommend that you read and retain this fact sheet along with the Private Health Information Statement for this product and Frank's Important Information Guide.

## Extras cover with 50% back

Frank's Some Extras cover works on the percentage back system. Whatever the provider charges, we pay 50% back up to your annual limits.

That means if you are charged \$40 for a treatment you'll get \$20 back as long as you have served your waiting periods and have available limits.

## Do I have my choice of extras provider?

Yes. Frank believes in freedom of choice, so we pay the same benefits to any registered provider. This means you can use your regular dentist, optometrist or physio and still claim.

## Are there extras services frank won't pay?

Yes there are. This might make us sound mean but if you have a read, you'll see they're fair.

Where you are entitled to receive a rebate from Medicare for extras treatments you cannot claim any out of pocket expenses with Frank.
