Private Health Insurance Tax Statement 1 July 2025 to 30 June 2026

The table below provides details of your 2025-26 private health insurance policy. If your policy has more than one Private Health Insurance Incentive Beneficiary, this statement will only display your share amounts.

The Australian Government determines the way the rebate is calculated and applied to premiums. Rebate percentages were adjusted on 1 April 2026. If you paid premiums for your policy before and on or after 1 April, the table below will contain at least two lines of information. Where more than one line of information has been provided, the information from each line must be entered separately at the corresponding labels on the income tax return at **private health insurance policy details**.

You will need to nominate a tax claim code when completing the private health insurance policy details section of your tax return. Read the tax return instructions to determine the tax claim code appropriate for your situation.

IMPORTANT - If you have more than one line of information in the table above, make sure each line is input separately into your income tax return. Do not add-up amounts reported in any column or row and input a total.
